POLIS CERAMICHE S.p.A. da oltre 40 anni è marchio conosciuto nel panorama ceramico mondiale, per la qualità tecnica ed estetica della propria produzione.

La missione aziendale è di produrre ceramiche di alta qualità per le applicazioni dell'edilizia residenziale, garantendo l'eccellenza del servizio con la volontà di migliorare ancora il valore del nostro marchio.

Lo stabilimento produttivo ha una superficie coperta di 55.000 mq, è situato a Bondeno di Gonzaga (MN); insiste su un'area di circa 150.000 mq ed occupa oltre 250 dipendenti. Polis è in grado di offrire tutte le tipologie ceramiche quali: Gres Porcellanato, Bicottura tradizionale per una capacità produttiva di oltre 5.000.000 mq annui.

Polis inoltre è attenta al rispetto ambientale e alla sicurezza nei luoghi di lavoro, infatti ha ottenuto la certificazione ISO 18001.

English

POLIS CERAMICHE S.p.A. began its activity over 40 years ago and has now become a renowned brand in the field of ceramics by virtue of the technical and aesthetic quality of its products. The company's mission is producing top quality ceramic tile for residential buildings, granting an excellent service and using all endeavours to make the brand better still. Production facilities are in Bondeno di Gonzaga (Mantua) and cover an area of 150.000 m². The company has currently 250 staff members. The modern production lines manufacture all types of ceramic tile, namely: porcelain stoneware and double-firing for a production capacity of over 5.000.000 m²/year. The mission of Polis also takes account of environmental issues and safety in the workplace. In fact obtained the ISO 18001 certification.

Français

POLIS CERAMICHE S.p.A. est une marque connue depuis plus de 40 ans dans le panorama mondial de la céramique pour la qualité technique et esthétique de sa production. La mission de la société consiste à produire des céramiques de haute qualité pour les applications du bâtiment résidentiel, en garantissant l'excellence du service avec la volonté d'améliorer davantage la valeur de notre marque. L'usine de production, sise à Bondeno di Gonzaga (Mantoue), s'étend sur une zone d'environ 150.000 m² et compte plus de 250 employés. Les modernes lignes de production permettent d'obtenir toutes les typologies de céramiques telles que: Grès Cérame, Biccuisson traditionnelle pour une capacité de production de plus de 5.000.000 m²/an. Polis est également très attentive à respecter l'environnement et la sécurité sur les lieux du travail, en fait, Polis a obtenu la certification ISO 18001.

Deutsch

Seit mehr als 40 Jahren ist POLIS CERAMICHE S.p.A. im weltweiten Panorama der Keramik das für die technische und ästhetische Qualität ihrer Produktion. Die Mission des Unternehmens besteht darin hochwertige Keramik für die Anwendungen im Wohnungsbauwesen zu produzieren, mit der Gewährleistung eines hervorragenden Service und mit dem festen Willen den Wert unseres Markenzeichens noch zu verbessern. Das Produktionswerk liegt in Bondeno di Gonzaga (MN), es erstreckt sich über einen Bereich von circa 150.000 qm und beschäftigt über 250 Mitarbeiter. Aus den modernen Produktionslinien kommen alle keramischen Typologien, wie beispielsweise: Feinsteinzeug, traditioneller Doppelbrand für eine Produktionskapazität von 5.000.000 qm pro Jahr. Außerdem ist POLIS auf den Umweltschutz und auf die Sicherheit am Arbeitsplatz sehr rücksichtig, nämlich erzielte sie beide die Bescheinigungen ISO 18001.

Storia...dal 1973

Tecnologia, esperienza ed affidabilità sono le caratteristiche che rivelano la vocazione produttiva di Polis Ceramiche.

Progettazione, know-how ed assistenza tecnica specializzata permettono a Polis Ceramiche di offrire ai Clienti un servizio ineccepibile in grado di soddisfare prontamente le esigenze della domanda. Impianti modernissimi e processi d'avanguardia garantiscono manufatti di qualità elevata. Approfondite analisi di marketing precedono la produzione delle collezioni Polis, sempre presenti sul mercato con prodotti che anticipano le tendenze. L'opera eccellente di designer professionisti permette a Polis di realizzare articoli dall'estetica elegante e ricercata.

Ogni prodotto Polis viene sottoposto a severi test di prova per attestarne la qualità. I risultati delle verifiche sono certificati da laboratori specializzati al fine di garantire la massima sicurezza. L'esperienza e la perfetta conoscenza del prodotto, acquisite da Polis, si fondono con le più sofisticate tecnologie, frutto di investimenti consistenti che hanno accentuato nell'azienda il dinamismo e la propensione a rinnovarsi.

English

Technology, experience and reliability are the keystones of the Polis Ceramiche production philosophy. Design, know-how and specialist technical assistance enable Polis Ceramiche to offer the customer a flawless service capable of meeting the demand's needs without delay. In-depth marketing studies precede the production of Polis collections, which are always guaranteed trend-setters. The outstanding work of professional designers allow Polis to create articles with elegant, sophisticated styling. Every Polis product undergoes rigorous tests to verify its resistance to frost, flexion, abrasion and the main acids, as well as its breaking strain. The results of these tests are certified by specialized laboratories to assure the maximum reliability. The experience and perfect knowledge of its product which Polis has acquired in over twenty years merge with the most sophisticated technologies, provided by large investments which have accentuated the company's dynamism and commitment to renewal.

Francais

Technologie, expérience et fiabilité caractérisent la production de Polis ceramiche. L'établissement de projets, le savoir-faire et l'assistance technique spécialisée permettent à Polis Ceramiche d'offrir à ses Clients un service irréprochable pouvant satisfaire rapidement toutes leurs demandes. Des analyses approfondies de marketing précèdent la production des collections Polis, toujours présentes sur le marché avec des produits qui anticipent les tendances. Des designers professionnels réalisent des articles d'un esthétisme élégant et recherché. Chaque produits Polis est soumis à des essais très sévères sur la résistance au gel, à la flexion, à l'abrasion, à la charge de rupture et aux acides de base. Les résultats des contrôles sont certifiés par des laboratoires spécialisés pour garantir la sécurité maximum. L'expérience et la connaissance parfaite du produit, acquises par Polis pendant plus de vingt ans, se fondent avec les technologies les plus sophistiquées, fruit d'investissement importants qui ont accentué dans l'entreprise le dynamisme et la propension à se renouveler.

Deutsch

Technologie, Erfahrung und Zuverlässigkeit sind die Eigenschaften, die als gemeinsamer Nenner der Produkte von Polis Ceramiche bezeichnet werden können. Projektierung, Know-how und ein kompetenter, technischer Kundendienst sorgen dafür, daß Polis Ceramiche ihren Kunden einen perfekten Service anbieten kann, der jedem Anspruch gerecht wird. Eingehende Marketinganalysen werden durchgeführt, bevor die Poliskollektionen in Produktion gehen, und sie nehmen auf dem Markt immer wieder die neuesten Trends vorweg. Die vorzügliche Arbeit der Designer ermöglicht Polis die Herstellung von eleganten, ausgesuchten Produkten. Jedes Polis-Erzeugnis wird strengen Tests unterzogen, um ihre Frost-, Biege-, Abrieb-, Bruch- und Grundsäurenbeständigkeit zu überprüfen. Die Prüfungsergebnisse werden durch spezialisierte Prüfinstitute bescheinigt, um maximale Sicherheit zu bieten. Die in über zwanzigjähriger Tätigkeit von Polis gesammelte Erfahrung und perfekte Kenntnis des Produkts vereinen sich mit modernsten Technologien, die durch umfangreiche Investitionen entwickelt werden konnten und die Dynamik und Innovationsfreudigkeit des Unternehmens gestärkt haben.

Tecnologia Relux

Polis Ceramiche Spa, grazie alla Tecnologia Relux, dà vita alla rivoluzionaria piastrella in gres porcellanato ecologico, prodotta con vetro ad alte prestazioni tecniche di lampade fluorescenti.

L'innovazione tecnologica da noi sviluppata, in collaborazione con L'Università di Modena e Reggio Emilia (DIMA dipartimento di ingegneria dei materiali e dell'ambiente), e con Relight (impianto di trattamento rifiuti da apparecchiature elettriche ed elettroniche), ha reso possibile ottenere uno smalto di qualità utilizzando il 40% di un prodotto a fine vita.

Grazie a queste importanti innovazioni Polis è riuscita a realizzare una piastrella in Gres Porcellanato Smaltato il cui eco-bilancio è decisamente positivo: riduzione dello sfruttamento delle materie prime, riduzione dell'impatto ambientale derivato dai trasporti, riduzione del consumo di energia, recupero di materiali di alta qualità e riduzione dei quantitativi dei rifiuti da avviare allo smaltimento finale.

English

Thanks to a collaboration between the University of Modena and Reggio Emilia (Faculty of Material and environmental Engineering- DIMA) and two firms, Relight Srl- research laboratories for recycling waste of electrical and electronically equipment and Polis Manifatture Ceramiche SpA a new porcelain glazed tile has been achieved. It contains a glaze composed by 40% recycled glass, coming from high-performance spent fluorescent lamps; the excellent tile created is a high performance product with a low environmental impact, as for the Integration Products Politic (IPP). 5 key points for a positive ecobalance: reducing the use of raw materials, reducing transport, reducing energy consumption, recycling high-quality materials, reducing energy consumption.

Français

Technologie écologique pour l'environnement Dans le cadre d'une collaboration entre l'Université de Modena et Reggio Emilia (Faculté d'Ingénierie des Matériaux et de l'Environnement) les laboratoires Relight et Polis Ceramiche SpA, ont créé un carreau révolutionnaire en grés cérame émaillé: il est couvert d'un émail composé par 40% de verre avec d'excellentes caractéristiques techniques, fabriqué à partir du verre recyclé prélevé des lampes fluorescentes en fin de vie. Le nouveau carreau unis an haute qualité du produit avec le complet respecte de l'environnement, en ligne avec la Politique Intégrée des Produits (IPP). 5 points clés : moins de matières premières exploitées, moins de transports, moins d'énergie consommée, matériaux de première qualité récupérés, moins de déchets à éliminer.

Deutsch

Ökologische Technik für die Umwelt. Dank einer Zusammenarbeit mit der Universität von Modena und Reggio Emilia (Fakultät für Werkstofftechnik und Umwelt) und Relight Laboratorien wurde eine revolutionäre Keramikfliese geschaffen. Dieses revolutionäre Projekt ermöglicht die Verwendung des Glases der fluoreszierenden Lampen nach Ablauf ihrer Lebensdauer in der keramischen Glasur, und somit die Verminderung des Gebrauchs von neuem Rohmaterial um 40%. Dank der Technologie Relux, realisierte Polis ein hochwertiges Produkt welches hohe Leistungen und Respekt zur Natur kombiniert: Reduzierung der neuen Rohstoffe, die Verminderung der Transporte, Rueckgewinnung von hochwertigem Material, Verringerung des Energieverbrauchs und der Abfallentsorgung.

2.0 outdoor flooring solutions

2.0 è la soluzione di Polis in gres porcellanato con spessore 2 cm, specificatamente studiato per progetti di pavimentazione esterna.

Ingelivo e resistente agli agenti atmosferici, 2.0 può essere utilizzato sia in ambito residenziale che commerciale, garantendo affidabilità nel tempo ed una assoluta facilità di manutenzione.

4 le tipologie di posa previste: a secco su erba e ghiaia, tradizionale con collante e sopraelevata su supporti.

A corredo del progetto 2.0 propone una serie di pezzi speciali che garantiscono finiture a regola d'arte.

English

2.0 is 2 cm thick porcelain stoneware that has been designed by Polis especially for outdoor use.

Since it is frost-proof and resists adverse weather conditions, 2.0 can be used both in residential and commercial environments. It resists time and requires extremely easy care and maintenance. 4 laying methods: dry on grass or gravel; traditional with adhesive; raised on supports. 2.0 is completed by a range of trim pieces to offer perfect finishing.

Français

2.0 est la solution de Polis en grès cérame d'une épaisseur de 2 cm, spécialement conçue pour des projets de carrelage en extérieur.

Résistant au gel et aux agents atmosphériques, 2.0 peut être utilisé dans des contextes aussi bien résidentiels que commerciaux. Il reste fiable longtemps et son entretien est extrêmement simple. Il existe 4 typologies de pose : à sec sur l'herbe ou gravier, traditionnelle avec du mortier-colle et surélevée sur supports. Le projet 2.0 propose également une série de pièces spéciales qui garantissent des finitions parfaites.

Deutsch

2.0 ist die Lösung von Polis aus Feinsteinzeug mit einer Stärke von 2 cm, eigens für die Planung von Fußböden im Außenbereich entwickelt.

2.0 ist frostbeständig und wetterfest und kann sowohl in Wohnbereichen als auch in Geschäftsräumen verwendet werden, wobei es eine über lange Zeit anhaltende Zuverlässigkeit und einfachste Wartung garantiert. Die vier vorgesehenen Verlegungsmöglichkeiten: Trocken auf Rasen und Kies, auf herkömmlich Weise mit Kleber und überhöht auf Stelzlagern. Als Projektausstattung bietet 2.0 eine Reihe von Formteilen, die eine fachgerechte Fertigstellung garantieren.

Certificazioni

certifications :: certifications :: Zertifizierungen

MARCATURA CE Il marchio CE rappresenta il passaporto per i prodotti commercializzati all'interno del mercato EU. La documentazione commerciale relativa è consultabile da parte dei distributori, professionisti ed utilizzatori su polis.it.

Ce-mark represents the product passport for UE market trade. Relevant commercial documentation is available for distributors, professionals and users on the company website polis.it.

La marque Ce représente un passeport pour les produits qui doivent être commercialisés entre le marché européen. Les distributeurs, les professionnels et les utilisateurs peuvent consulter la documentation commerciale correspondante sur site Internet polis.it.

Das Markenzeichen für die Produkte, die innerhalb des Europäischen Marktes in Verkehr gebracht sind. Die entsprechenden Unterlagen können von Händlern, Fachleuten und Verbrauchern auf der unternehmenseigenen Website polis.it eingesehen werden.

ECOLABEL La certificazione Ecolabel è il marchio europeo di qualità ecologica assegnato ai prodotti migliori nel campo della salvaguardia dell'ambiente: esso rappresenta un attestato di eccellenza ambientale e prestazionale. I rigorosi criteri per la concessione del marchio risultano da studi scientifici che esaminano l'impatto ambientale del prodotto durante il suo intero ciclo di vita.

The Eco-label is a EU mark of quality awarded to the best environmentally friendly products: it represents a certificate of environmental and economic excellence. The Eco-label criteria come from deep and strict studies evaluating the product environmental impact during its lifecycle.

Instituit par l'Union Européenne, la certification Ecolabel est le label européen de qualité écologiques et certifies les organisations qui ont contribué au développement durable, ayant comme objectif le respect de l'environnement. Les critères utilisés par la subvention du certificat sont le résultat très sélectives des études scientifiques qui examinent l'impact environnementale du produit en tout son cycle de vie.

Das Zertifizierung Ecolabel ist die europäische Umweltzeichen mit dem Ziel der Erhaltung der Umwelt und stellt eine Bescheinigung für die beste Produkte in Bezug auf Umweltschonung. Die Kriterien für die Gewährung des Brandes sind sehr selektiv und sind das Ergebnis von wissenschaftlichen Studien und Tests, die die Auswirkungen auf die Umwelt - aus der Gewinnung von Rohstoffen am Ende ihrer Nutzung - prüfen.

CCC Il China Compulsory Certificate è un marchio di sicurezza obbligatorio per molti prodotti venduti sul mercato cinese. Le informazioni sulla Certificazione CCC riguardano in generale la sicurezza e la salute, con particolare riferimento, nel caso delle piastrelle di ceramica, alle sole piastrelle in Gres Porcellanato, con un assorbimento minore o uguale allo 0,5%. La Certificazione si ottiene attraverso l'intervento di istituti appositamente accreditati dalle Autorità Cinesi, tutti con sede in Cina.

The China Compulsory Certificate is a mandatory safety mark for many products sold on the Chinese market. The information specified by CCC certification generally concerns health and safety and, regarding ceramic tiles in particular, specifically refers only to tiles in porcelain stoneware with absorption equal to or lower than 0.5%. The certification is issued by bodies specially accredited by the chinese authorities, which are all based in China.

Le China Compulsory Certificate est un marque de sûreté obligatoire pour beaucoup de produits destinés au marché chinois. Les informations de la certification CCC portent sur la sécurité et la santé. En ce qui concerne les carrelages ceramiques, seuls les carreaux en gres cerame, dont l'absorption est inférieure ou égale à 0,5%, font l'objet d'une attention particulière. La certification est delivree par des organismes accredités expressément par les autorités chinoises. Les sieges de ces organismes sont tous en Chine.

Das China Compulsory Certificate ist ein obligatorisches Sicherheitszeichen für viele Produkte, die auf dem chinesischen Markt verkauft werden. Die CCC-Zertifizierung betrifft im allgemeinen Sicherheit und Gesundheit, mit besonderem Bezug bei Keramikfliesen auf Feinsteinzeugfliesen mit einer Wasseraufnahme von weniger als oder gleich 0,5%. Die Zertifizierung erfolgt durch von den chinesischen Behörden zugelassene Stellen, die ihren Sitz in China haben.

QB UPEC classificazione per l'utilizzo dei prodotti da pavimentazione. E' un sistema di classificazione funzionale che certifica se un determinato prodotto da pavimentazione sia adeguato all'utilizzo in un certo locale per una durata sufficiente e ragionevole.

Le quattro lettere indicano rispettivamente:

- U: resistenza all'usura da calpestio
 - P: resistenza meccanica agli spostamenti di oggetti mobili e fissi
 - E: comportamento in presenza di acqua
 - C: resistenza agli agenti chimici correnti.
- Idoneità delle piastrelle ceramiche alla posa su piedini. La lista completa e aggiornata dei prodotti certificati è visionabile sul sito www.cstb.fr.

QB UPEC, classification for the use of paving products. Is a functional classification system that certifies if a specific flooring product is suitable for use in a certain room for a sufficient and reasonable duration.

- The four letters refer to:
- U: resistance to foot traffic wear
 - P: mechanical resistance to the shifting of movable and fixed objects
 - E: resistance to water
 - C: resistance to commonly used chemicals
- Suitability of ceramic tiles for installation on pedestals. The full, up-to-date list of certified products can be viewed at www.cstb.fr.

QB UPEC, classification pour l'utilisation des produits de pavage. Est un système de classification fonctionnel qui certifie si un produit de revêtement de sol spécifique peut être utilisé dans une pièce donnée pendant une durée suffisante et raisonnable.

- Les quatre lettres indiquent respectivement :
- U: Usure à la marche
 - P: Résistance mécanique au déplacement d'objets mobiles et fixes
 - E: Comportement à l'eau
 - C: Tenue aux agents chimiques ordinaires
- Aptitude des carreaux céramiques à une mise en œuvre sur plots. La liste complète et à jour des produits certifiés peut être consultée sur le site www.cstb.fr.

QB UPEC-Klassifizierung für die Verwendung von Bodenbeläge. Es ist ein Klassifizierungssystem, das bescheinigt, ob ein bestimmtes Fußbodenprodukt für die Verwendung in einem bestimmten Raum und für eine ausreichende und angemessene Zeit, geeignet ist. Die vier Buchstaben bezeichnen jeweils:

- U: Trittbedingte Abnutzung
 - P: Eindrucksuren durch Mobiliar und sonstige fest installierte oder mobile Einrichtungen (Objekte)
 - E: Verhalten gegenüber Wasser
 - C: Verhalten gegenüber Chemikalien
- Eignung der keramischen Fliesen zur Verlegung auf Stelzlagern. Die komplette und aktualisierte Liste der zertifizierten Produkte ist im Internet auf www.cstb.fr einsehbar.

MONTAGNE Cervinia 45x90 :: Cervinia Briquette 30x60

Briquette: corretta modalità di posa

Mode de pose à appliquer :: Correct laying method :: Richtige Verlegeweise

Si consiglia di sfalsare tra loro le mattonelle di 15 cm, utilizzando una fuga di 2 mm tra una e l'altra.

We suggest to stagger the tiles by 15 cm – the joint must be 2 mm
Nous conseillons de décaler les carreaux de 15 cm - le joint doit être de 2 mm
Bei der verlegung empfehlen wir die fliesen 15 cm zu versetzen - die fuge sollt 2 mm sein

Corretta modalità di posa

mode de pose à appliquer :: correct laying method :: richtige Verlegeweise

Nella posa cosiddetta “a correre” è necessario avere una cura particolare nel livellare ed accostare i singoli pezzi fra loro, attenuando le differenze di planarità che eventualmente dovessero manifestarsi. Piccole differenze di planarità sono inevitabili nella posa “a correre” e in ogni caso non pregiudicano il buon risultato finale. Nella posa si consiglia di sfalsare la piastrella al massimo di 1/4. Come per tutti i materiali rettificati la fuga deve essere almeno di 2mm. Per un effetto cromatico ottimale si consiglia di utilizzare uno stucco in tinta con il materiale.

English

For a staggered pattern it is important to pay particular attention and to level the pieces when placing them next to each other, reducing any differences in flatness evenness that may occur. Small differences in evenness are inevitable when laying in a staggered pattern and in any case they do not prejudice the excellent final result. When laying the boards we suggest that you stagger them by maximum 1/4. As for all rectified materials, the joint must be 2 mm wide. For an optimal chromatic effect, we recommend the use of grout that matches the colour of the material.

Français

Pour la pose dite a «á bandes libres», il est nécessaire de prêter une attention particulière au nivellement et de poser chaque pièce l'une contre l'autre, en atténuant les différences de niveau qui pourraient éventuellement se présenter. De petites différences de planéité sont inévitables dans le cas de pose a «á bandes libres» et, dans tous les cas, elles ne portent pas préjudice au bon résultat final. Lors de la pose, nous conseillons de décaler les listels de 1/4 maximum. Comme pour tous les matériaux, rectifiés, le joint doit être de 2 mm. Pour obtenir un effet chromatique optimal, nous conseillons d'utiliser un joint de la même couleur que le matériau.

Deutsch

Bei der sogenannten “fortlaufenden” Verlegung ist es notwendig, besonders auf die Nivellierung und Kombination der einzelnen Teile untereinander zu achten, wobei die Unterschiede in der Ebenheit auszugleichen sind, die eventuell auftreten koennen. Geringfügige Unterschiede in der Ebenheit sind bei der “fortlaufenden” Verlegung unvermeidlich und beeinträchtigen keinesfalls das gute Endergebnis. Bei der Verlegung wird empfohlen, die Platten um höchstens 1/4 zu versetzen. Wie bei allen rektifizierten Materialien muss die Fuge 2 mm betragen. Für einen optimalen Farbeffekt wird geraten, einen farblich zum Material passenden Moertel zu verwenden.

Le caratteristiche tecniche indicate nei cataloghi di linea e nel catalogo generale, e in qualsiasi documento di promozione commerciale di polis ceramiche spa, hanno lo scopo di dare un'indicazione dei valori riscontrati nei vari lotti e nelle varie tonalità del prodotto, pertanto differenze rispetto a tali valori indicativi non possono essere oggetto di contestazione. All technical features stated in leaflets, in master brochure and in merchandising of Polis Ceramiche SpA are meant to be an indication of an average of figures recorded within a span (determined by international law) in several production runs, therefore a slight discrepancy in quality figures of a certain batch in relation to these figures cannot be considered a production failure. Les caractéristiques techniques mentionnées dans les catalogues de ligne et dans le catalogue général et dans tous les documents de promotion commerciale de Polis Ceramiche SpA ont le but de fournir une indication des valeurs rencontrées dans les différents lots et dans les différentes tonalités du produit et donc les différences par rapport à ces valeurs indicatives ne peuvent pas faire l'objet des réclamations. Die angegebenen technischen Daten im Gesamtkatalog und im jedem anderem Werbepublikum von Ceramica POLIS SPA, sollen einen Hinweis auf die Durchschnittswerte in den verschiedenen Chargen und in den verschiedenen Farbtönen des Produktes seien, daher Abweichungen von diesen Werten, sollten nicht ein Produktionsfehler betrachtet werden.

STONALIZZAZIONE V-SHADE color shading V-Shade :: denuancement V-Shade :: farbspiel V-Shade							
V1		V2		V3		V4	
	Prodotto monocromatico The least amount of shade and texture variation Produit monochromatique Eifairbiges produkt	Prodotto con leggera variazione cromatica e grafica Light to moderate shade and texture variation within each box Produit à légère variation chromatique Produkt mit leichter farbnuance	Prodotto con marcata variazione cromatica e grafica High shade texture variation within each box Produit à variation chromatique accentuée Produkt mit ausgeprägter farbnuance	Prodotto con forte variazione cromatica e grafica Very high shade and texture variation within each box Produit à forte variation chromatique Produkt mit starker farbnuance			

La classificazione v-shade indica il livello di stonalizzazione del prodotto, ovvero la variazione cromatica e grafica della superficie che intercorre tra le piastrelle di una stessa collezione. The V-Shade classification indicates the colour shading level of a product, that is to say the chromatic and texture variation among tiles of the same collection. La classification V-Shade indique le niveau de gradation du produit, c'est-à-dire de variation chromatique et graphique entre des dalles d'une même collection.

Consigli di Posa

Advice for laying :: Conseils pour la pose :: Verlegungs

Qui di seguito potrete trovare un elenco di consigli non esaustivi per la posa, ovviamente queste indicazioni dovranno essere accompagnate dall'esperienza di posatori qualificati al fine di eseguire una posa a regola d'arte.

Si consiglia di eseguire durante la posa le seguenti operazioni:

- 1) **Stendere a terra alcune scatole di materiale per verificare l'effetto di insieme; posare attingendo da scatole diverse.**
- 2) **Non immergere il materiale in acqua prima della posa.**
- 3) **Battere le piastrelle fino alla totale scomparsa di bolle d'aria nella colla.**
- 4) **Non segnare la superficie con pennarelli.**
- 5) **Per grandi formati e pose di esterni è necessario eseguire la doppia spalmatura.**
- 6) **Per un trattamento completo si rimanda a pubblicazioni ufficiali, un esempio lo potrete trovare sul sito: www.confindustriaceramica.it ("A proposito di piastrelle...La posa")**

STUCCATURA Stuccare il pavimento 24/48 ore dopo la posa, le fughe devono essere perfettamente pulite. Stuccare piccole porzioni di superfici per volta (4/5 mq) e lavare accuratamente con acqua. Si suggerisce un colore di stucco tono su tono del materiale.

FUGA La larghezza della fuga può variare in funzione delle dimensioni delle piastrelle e della destinazione d'uso del pavimento, generalmente si consiglia una posa con fuga 3 mm. Nel caso specifico di materiale rettificato la fuga deve essere almeno di 2 mm. Nella posa di formati diversi in composizione è necessaria una fuga dai 4 ai 5 mm. Nella pavimentazione cosiddetta a "correre" è indispensabile avere una cura particolare nel livellare ed accostare i singoli pezzi fra loro, attenuando le differenze di planarità che eventualmente dovessero manifestarsi. Piccole differenze di planarità sono inevitabili nella posa a "correre" e in ogni caso non pregiudicano il buon risultato finale, pertanto si consiglia di sfalsare le piastrelle al massimo della loro lunghezza. Per tutte le pavimentazioni di superfici esterne dovrebbe sempre essere specificata la posa a giunto aperto, con fughe di ampiezza 5 mm. La posa a giunto aperto è il modo più efficace di prevenire i rischi associati alle elevate sollecitazioni termiche ed igrometriche a carico delle piastrelle negli ambienti esterni.

PULIZIA POST-POSA Riteniamo importante precisare che i prodotti POLIS SPA vengono sottoposti continuamente a tutti i test di resistenza alle macchie previsti dalle norme EN 14411. Una volta posato il materiale deve essere tempestivamente ripulito dalla polvere e, in particolare, dai residui di fuganti rimasti in seguito alla lavorazione e alla posa. Per questa azione si consiglia di non utilizzare paste, spugne, detergenti o sostanze abrasive in genere. Qualora si renda inevitabile l'utilizzo di detergenti a base acida o basica (per la concentrazione consultare le istruzioni d'uso del detergente o provare il prodotto in una piccola porzione del pavimento nascosta prima di utilizzarlo sull'intera superficie), si raccomanda di risciacquare bene fino a rendere limpida l'acqua utilizzata, procedendo successivamente all'asciugatura. È fondamentale che questa operazione venga effettuata con cura per garantire la qualità estetica e prestazionale del materiale, e per facilitare la pulizia ordinaria che verrà fatta durante il normale utilizzo del prodotto. Dopo queste procedure, si consiglia un'attenta protezione del pavimento, specie nel caso si tratti di materiali lucidi e/o lappati, in quest'ultimo caso, per la pulizia a fuga consolidata, devono essere utilizzati i pulitori consigliati.

PULIZIA ORDINARIA Per la pulizia quotidiana è sufficiente asportare la polvere con un panno asciutto, lavare la superficie con acqua e detergente neutro diluito in essa secondo le istruzioni d'uso, utilizzando uno straccio umido che andrà sciacquato spesso nella soluzione. Nel tempo, l'utilizzo di acqua sporca, prodotti lucidanti o eccesso di detergenti può formare una patina invisibile causa di aloni e macchie. Confermiamo che i prodotti delle Ceramiche Polis SpA sono stabili e continuamente controllati. L'uso corretto e un trattamento normale non causerà difetti.

Infine ricordiamo di non usare mai smacchiatori di tipo antiruggine o spray perché spesso contengono acido fluoridrico: il danno che provocherà sarà irreparabile in quanto non esiste pavimento, nostro o di altri, resistente a tale acido.

PULIZIA STRAORDINARIA In caso di macchie particolari e/o particolarmente tenaci, è consigliabile l'uso di detergenti specifici (vedi tabella seguente). Inoltre non va dimenticato che la rimozione di qualsiasi tipo di macchia è più agevole se rimossa quando questa è ancora fresca.

SMALTIMENTO DEL PRODOTTO La selezione dei materiali da costruzione in funzione della loro durata è un elemento fondamentale per la sostenibilità ambientale di un edificio. Infatti un materiale con un ciclo di vita più lungo, con la stessa funzione d'uso di un altro, determina un impatto ambientale minore.

I prodotti **POLIS MANIFATTURE CERAMICHE SPA**, se correttamente installati e mantenuti, possono durare quanto l'edificio in cui sono stati collocati. Inoltre alla fine del ciclo di vita di tali prodotti, i residui derivanti dalla loro demolizione non richiedono particolari trattamenti poiché, in virtù dell'elevata inerzia chimica, non rilasciano sostanze nell'ambiente. Il materiale così generato dovrà essere recuperato o smaltito nel rispetto delle normative nazionali e locali vigenti.

Here below is a list of basic recommendations for installation. These must obviously be completed by the experience of qualified fitters in order to obtain a finished effect complying with 'rules of the trade'.

The following operations are recommended during installation:

- 1) **Place tiles of several boxes on the floor to check out the overall effect. Install by taking and mixing tiles from different boxes.**
- 2) **Never immerse tiles in water before installation.**
- 3) **After installation, tap the tiles to eliminate any air bubbles in the adhesive you have used.**
- 4) **Do not use markers on the tile surface.**
- 5) **For large sizes, you must adopt the double-spreading technique (i.e. spread adhesive both on the bottom face of the tile and on the floor).**
- 6) **For detailed information, refer to official publications. You can find these on the following web site, for instance: www.confindustriaceramica.it ("Focus on tiles...Installation")**

GROUTING Apply grout to floors 24/48 hours after installation.

Joints between tiles must be perfectly clean. Apply grout to small portions of surface (4 or 5 m²) at a time and wash thoroughly with water. We recommend use of a grout with the same tone as the tile.

JOINT BETWEEN TILES The width of a joint depends on the size of a tile and on the intended use of the floor. As a general rule, we recommend a 3 mm joint. If material is rectified, the joint must be at least 2 mm wide. When installing patterns with different sizes, the joint must be 4 to 5 mm wide. "Straight-forward layout" installation requires special attention in combining and levelling the single pieces so as to reduce the differences in flatness that may be present. Small differences in flatness are typical of "straight-forward layout" installation and, in any case, do not compromise the final result. It is recommended to "offset" tiles by one quarter of their length at the most. For all exterior floors, installation should be "open-joint" with joints having a width of 5 mm. Open-joint installation is the best way to prevent the risks relating to high thermal stress and hygrometric shrinkage, which are typical of tiles installed outdoors.

CLEANING AFTER INSTALLATION We would like to remind you that all products of POLIS SPA go subject to the stain-resistance tests of the EN 14411 standard.

After installation, any dust and, in particular, residues of adhesive must be removed as rapidly as possible. For this operation, do not use paste, sponges or abrasives detergents and substances. After using acid or basic solutions (see the instructions on the pack for information about dilution and test the detergent on a small, hidden portion of surface before using it), if this is strictly necessary, rinse with care until rinsing water is clean, and then dry. This operation must be performed with special care so as to maintain the beauty and properties of the material and facilitate routine cleaning during normal use of the product. After these preliminary operations, clean your floor with care, especially if the tiles are glossy and/or lapped. In the latter case, never use acid-based detergents for cleaning.

ROUTINE CLEANING As far as daily cleaning is concerned, remove dust with a dry cloth, wash with water and a neutral detergent (follow the maker's instructions) using a moist cloth that must be frequently rinsed in the solution. The use of dirty water, gloss-enhancers or too much detergent may cause a film to form on the surface, which causes stains and marks. We confirm that the products of Ceramiche Polis SpA are stable and continuously checked. Correct use and proper care will prevent defects.

For cleaning, never use stain removers of the rust-proofing or spray type as they contain hydrofluoric acid: resulting damage will be irreparable since there is no tile available, either manufactured by us or by others, that resists this acid.

EXTRA-DUTY CLEANING In the event of specific stains and/or deep-down dirt, use special detergents (see table below). Remember that stains are easier to remove if they are still "fresh".

DISPOSAL OF THE PRODUCT The choice of building materials on the basis of their service life contributes to the environmental sustainability of a building. Material with a longer lifecycle, having the same intended use as material with a shorter lifecycle, results in a lower environmental impact. Upon condition that they are correctly installed and maintained, products of POLIS MANIFATTURE CERAMICHE SPA can last as long as the building in which they have been installed. At the end of their lifecycle, residues resulting from demolition call for no particular treatment since, due to their chemical inertia, they do not release harmful substances into the environment. Material must be recycled or disposed of in accordance to the national and local rules and standards in force.

Nous vous proposons ci-après une liste de conseils non exhaustifs pour la pose. Ces indications devront bien sûr être accompagnées de l'expérience de poseurs qualifiés pour obtenir une pose dans les règles de l'art.

Il est conseillé d'exécuter les opérations suivantes durant la pose:

- 1) Poser au sol quelques boîtes de matériel pour contrôler l'effet d'ensemble; poser le produit en le prélevant de différentes boîtes.
- 2) Ne pas plonger le matériel dans l'eau avant la pose.
- 3) Taper sur les carreaux jusqu'à l'élimination totale des bulles d'air présentes dans la colle.
- 4) Ne pas marquer la surface avec des feutres.
- 5) Pour de grands formats et les poses en extérieur, il est nécessaire d'effectuer le double encollage.
- 6) Pour un traitement complet, se référer aux publications officielles. Vous pouvez trouver un exemple sur le site: www.confindustriaceramica.it (« A propos de carreaux...La pose »)

STUCAGE Effectuer le stucage du sol 24/48 heures après la pose, les joints inter-carreaux doivent être parfaitement propres. Effectuer le stucage de petites portions de surfaces à la fois (4/5 m²) et laver soigneusement à l'eau. Il est conseillé d'utiliser une couleur de stuc dans le même ton que celle du matériel.

JOINTS INTER-CARREAUX La largeur des joints inter-carreaux varie en fonction des dimensions des carreaux et de l'utilisation du sol. Il est généralement conseillé de prévoir pour la pose des joints inter-carreaux de 3 mm. En cas de matériel rectifié, ces joints doivent être d'au moins 2 mm. En cas de pose de formats différents, il est nécessaire de prévoir des joints inter-carreaux de 4 à 5 mm. Pour le carrelage à joints contrariés, il faut particulièrement soigner le nivellement et la juxtaposition des carreaux en réduisant les éventuelles différences de planéité. Même si de légères différences de planéité sont inévitables dans la pose du carrelage à joints contrariés, celles-ci ne compromettent pas le bon résultat final. Il est donc conseillé de décaler les carreaux d'1/4 maximum de leur longueur. Pour la pose de tous les carrelages en extérieur, il conviendrait d'adopter des joints inter-carreaux d'une largeur de 5 mm. Cette pose est la solution la plus efficace pour prévenir les risques associés aux fortes contraintes thermiques et hygrométriques auxquelles sont soumis les carreaux en extérieur.

NETTOYAGE APRES LA POSE Nous tenons à préciser que les produits POLIS SPA sont constamment soumis à tous les tests de résistance aux taches prévus par les normes EN 14411. Après la pose, il est nécessaire d'éliminer au plus vite la poussière présente sur les carreaux et surtout les résidus de colle. Pour ce faire, il est conseillé de ne pas utiliser de produits abrasifs sous forme de pâtes, d'éponges, de détergents, etc. Si l'utilisation de détergents à base acide ou basique devait s'avérer nécessaire (pour la concentration consulter le mode d'emploi du détergent ou essayer le produit sur une petite portion cachée du carrelage avant de l'utiliser sur toute la surface), il est recommandé de bien rincer jusqu'à ce que l'eau de nettoyage soit limpide, et de laisser sécher. Cette opération doit être exécutée avec soin pour garantir la qualité de l'esthétique et des performances du matériel, et pour faciliter le nettoyage courant qui sera effectué durant l'utilisation normale du produit. Au terme de ces procédures, il est conseillé de bien protéger le carrelage, surtout en présence de carreaux brillants et/ou polis. Dans ce dernier cas, il ne faut pas utiliser de produits à base acide.

NETTOYAGE COURANT Pour le nettoyage quotidien, il suffit d'éliminer la poussière à l'aide d'un chiffon sec, de laver la surface avec un détergent neutre dilué dans de l'eau, selon les proportions indiquées sur le mode d'emploi, au moyen d'une serpillière qu'il faudra souvent rincer dans la solution. L'utilisation d'eau sale, de cires ou de trop fortes concentrations de détergents peut former petit à petit une patine invisible qui provoque des auréoles et des taches. Nous confirmons que les produits de Ceramiche Polis SpA sont stables et constamment contrôlés. L'utilisation correcte et un traitement normal ne provoqueront aucun défaut. Nous vous rappelons enfin de ne jamais utiliser de produits détachants du genre antirouille ou spray du fait qu'ils contiennent souvent de l'acide fluorhydrique : le dommage provoqué sera irréparable étant donné qu'il n'existe sur le marché aucun carrelage en mesure de résister à cet acide.

NETTOYAGE CURATIF En cas de taches particulières et/ou particulièrement difficiles, il est conseillé d'utiliser des détergents spécifiques (voir tableau suivant). Ne pas oublier non plus que l'élimination des taches, quelles qu'elles soient, est plus facile lorsque celle-ci est encore fraîche.

ÉLIMINATION DU PRODUIT La sélection des matériaux de construction en fonction de leur durée est un élément fondamental pour la durabilité environnementale d'un édifice. Un matériau avec un cycle de vie plus long, et la même fonctionnalité qu'un autre, détermine en effet un impact environnemental plus faible. En cas d'installation et d'entretien corrects, les produits POLIS MANIFATTURE CERAMICHE SPA peuvent durer aussi longtemps que l'édifice dans lequel ils ont été posés. En outre, à la fin du cycle de vie de ces produits, les résidus dérivant de leur démolition ne requièrent aucun traitement particulier étant donné qu'ils ne dégagent pas de substances dans l'environnement du fait de la forte inertie chimique. Le matériel ainsi généré devra être récupéré ou éliminé dans le respect des normes nationales et locales en vigueur.

Nachfolgend können Sie eine Liste mit nicht exhaustiven Ratschlägen zum Verlegen finden, selbstverständlich müssen diese Hinweise mit der Erfahrung von qualifizierten Fliesenlegern begleitet werden, um eine kunstgerechte Verlegung vorzunehmen.

Beim Verlegen sollten die folgenden Operationen ausgeführt werden:

- 1) Einige Schachteln mit Material auf den Boden stellen, um die Gesamtwirkung zu kontrollieren; bei der Verlegung die Fliesen aus verschiedenen Kartons entnehmen.
- 2) Das Material vor dem Verlegen nicht ins Wasser tauchen.
- 3) Solange auf die Fliesen klopfen bis die Luftblasen im Leim vollständig verschwunden sind.
- 4) Die Oberflächen nicht mit Filzstiften bezeichnen.
- 5) Bei großen Formaten und Verlegung in Außenbereichen muss ein zweifaches Kleberauftragen vorgenommen werden.
- 6) Für eine komplette Behandlung wird auf offizielle Veröffentlichungen verwiesen, ein Beispiel können Sie in der folgenden Website finden: www.confindustriaceramica.it ("A propos Fliesen ... Das Verlegen")

VERSPACHTELUNG Den Boden 24/48 Stunden nach dem Verlegen verspachteln, die Fugen müssen absolut sauber sein. Jeweils kleine Flächen von 4/5 qm verspachteln und sorgfältig mit Wasser reinigen. Zum Verspachteln empfehlen wir eine Farbe im gleichen Farbton des Materials.

FUGE Die Breite der Fuge kann je nach Abmessungen der Fliesen und der Gebrauchsbestimmung des Bodens variieren, im Allgemeinen wird eine Fuge von 3 mm empfohlen. Im spezifischen Fall von geschliffenem Material kann die Fuge mindestens 2 mm betragen. Beim Verlegen von verschiedenen zusammengefügt Formaten ist eine Fuge von 4 bis 5 mm erforderlich. Bei sogenanntem "laufendem" Fußbodenbelag muss beim Egalisieren und dem Zusammenführen der einzelnen Teile besonders sorgfältig vorgegangen werden, damit so die Unebenheiten vermindert werden, die eventuell auftreten könnten. Kleine Unebenheiten sind beim "laufenden" Verlegen unvermeidlich und auf jeden Fall beeinträchtigen sie das gute Endergebnis nicht, es ist also empfehlenswert die Fliesen nicht mehr als ¼ ihrer Länge zu verschieben. Für die ganzen Fußbodenbeläge in Außenbereichen sollte immer die Verlegung mit offener Fuge mit 5 mm Weite spezifiziert werden.

Das Verlegen mit offener Fuge ist die wirksamste Methode zur Verhütung von den Gefahren, die mit starken thermischen und hygrometrischen Belastungen der Fliesen in Außenbereichen verbunden sind.

NACHVERLEGUNGS-REINIGUNG Wir möchten hier betonen, dass die Produkte POLIS SPA fortlaufend allen in der Norm EN 14411 vorgesehenen Prüfungen auf Fleckenresistenz unterzogen werden.

Nach Verlegung muss das Material umgehend vom Staub und besonders von den nach der Bearbeitung und der Verlegung gebliebenen Kleberresten gereinigt werden. Für diesen Vorgang sollten keine Pasten, Schwämme, Reinigungsmittel oder abrasive Mittel allgemein verwendet werden. Wenn immer der Gebrauch von Reinigungsmitteln auf saurer oder basischer Grundlage unumgänglich ist (wegen der Konzentration die Gebrauchsanweisungen des Reinigungsmittel lesen oder das Produkt an einer versteckten Ecke des Bodens testen), muss unbedingt gut nachgespült werden, bis das verwendete Wasser klar bleibt; anschließend den Boden trocknen. Bei dieser Operation ist es von wesentlicher Bedeutung, dass sie sorgfältig ausgeführt wird, um die ästhetische Qualität und Leistungsfähigkeit des Materials zu gewährleisten und die regelmäßige Reinigung zu erleichtern, die beim Normalgebrauch des Produkts erfolgt. Nach diesen Prozeduren empfiehlt sich ein sorgfältiger Schutz des Bodens, besonders dann, wenn es sich um glänzende und/oder glatte Materialien handelt, im letzteren Fall dürfen für die Reinigung keine Produkte auf saurer Basis verwendet werden.

REGELMÄSSIGE REINIGUNG Für die tägliche Reinigung ist es ausreichend, wenn der Staub mit einem trockenen Lappen entfernt wird, die Fläche mit Wasser und einem den Gebrauchsanweisungen entsprechend darin verdünntem neutralen Reinigungsmittel reinigen, dazu einen feuchten Lappen verwenden, der oft in der Lösung ausgespült werden muss. Auf die Dauer kann der Gebrauch von schmutzigem Wasser, Poliermitteln oder zu vielen Reinigungsmitteln eine unsichtbare Schicht bilden, die die Ursache zur Bildung von Rändern und Flecken wird. Wir bestätigen, dass die Produkte von Ceramiche Polis SpA stabil sind und beständig kontrolliert werden. Der korrekte Gebrauch und eine normale Behandlung verursachen keine Mängel. Und schließlich erinnern wir Sie daran, dass niemals Fleckenentferner wie Rostschutzmittel oder Spray verwendet werden dürfen, die Fluorwasserstoffsäure enthalten: der Schaden, den sie verursachen, ist irreparabel, da es keinen Fußboden von uns oder von anderen Herstellern gibt, der dieser Säure widersteht.

SONDERREINIGUNG Bei besonderen und/oder besonders hartnäckigen Flecken empfiehlt sich der Gebrauch von spezifischen Reinigungsmitteln (siehe folgende Tabelle). Außerdem darf nicht vergessen werden, dass das Entfernen jeder Art von Flecken leichter ist, wenn diese noch frisch beseitigt werden.

ENTSORGUNG DES PRODUKTS Die Wahl der Baumaterialien auf Grund ihrer Lebensdauer ist ein wesentliches Element für die Umweltverträglichkeit eines Gebäudes. Denn ein Material mit einem längeren Lebenszyklus, dessen Gebrauchsfunktion der des anderen Materials entspricht, hat geringere Auswirkungen auf die Umwelt. Wenn die Produkte POLIS MANIFATTURE CERAMICHE SPA korrekt installiert und gepflegt werden, können sie die gleiche Lebensdauer haben wie das Gebäude, in dem sie sich befinden. Außerdem machen am Ende des Lebenszyklus dieser Produkte die durch ihren Abbau entstehenden Rückstände keine besonderen Behandlungen erforderlich, da sie dank der hohen chemischen Trägheit keine Substanzen an die Umwelt abgeben. Das so erzeugte Material muss unter Einhaltung der geltenden nationalen und lokalen Vorschriften rückgewonnen oder entsorgt werden.

AVVERTENZE IMPORTANTI

Il presente listino sostituisce e annulla i precedenti.
I prezzi del presente listino si intendono FRANCO FABBRICA.
L'imballo in scatole di cartone è compreso nel prezzo.
Tutti gli articoli di questo listino sono venduti esclusivamente a scatole complete.

Salvo diverse disposizioni la validità del presente listino è di un anno dalla data di emissione e in ogni caso subordinato alla variazione dei costi.
Prezzi non comprensivi di IVA.

Condizioni di vendita:

1) Normativa contrattuale. Le presenti condizioni generali, salvo modificazioni o deroghe concordate per iscritto, disciplinano tutti i contratti di vendita fra Polis manifatture ceramiche S.p.A. e l'Acquirente. Le variazioni delle condizioni generali di vendita, le offerte, gli accrediti o gli abbuoni accordati dai nostri agenti o altri intermediari, non sono validi se non accettate per iscritto dalla nostra sede.

2) Oggetto della fornitura. La fornitura comprende solamente i materiali, le prestazioni ed i quantitativi specificati nella nostra conferma d'ordine. Il testo della conferma d'ordine Polis prevarrà in ogni caso sul testo difforme della eventuale offerta o della ordinazione.

3) Conferma d'ordine. Qualora nella conferma d'ordine Polis esistano differenze nei singoli elementi che la compongono rispetto alle intese od alle ordinazioni, l'Acquirente che non abbia contestato per iscritto entro 7gg dalla ricezione della nostra conferma s'intende che l'abbia accettata così come è stata redatta. Il cliente si impegna a comunicare a Polis manifatture ceramiche S.p.A. l'eventuale variazione del luogo di destinazione della merce, se diverso da quello citato nella conferma d'ordine, entro e non oltre il giorno previsto per il ritiro presso Polis, mediante invio, tramite posta, fax o e-mail, dei dati identificativi del destinatario delle merci e del luogo presso il quale dovrà essere effettuata la consegna. In mancanza di tale comunicazione la destinazione originariamente indicata si intende tacitamente confermata.

4) Prezzi. I prezzi indicati sui listini Polis non sono impegnativi: di conseguenza ci riserviamo il diritto di modificarli prima dell'accettazione dell'ordine. I prezzi pattuiti per ogni singola vendita si intendono al netto, per contanti per consegna franco stabilimento, salvo diversa pattuizione scritta. Se fra la data di ordinazione (anche dopo la conferma d'ordine) e quella di consegna si verificassero aumenti nei costi delle materie prime, della manodopera, dei combustibili, nelle spese di produzione, di trasporto ecc., Polis potrà aumentare il prezzo convenuto dandone comunicazione scritta all'Acquirente anche a mezzo fax o posta elettronica. Tuttavia qualora detto prezzo superi del 20% quello convenuto al momento dell'ordinazione, l'Acquirente potrà recedere dal contratto notificandoci per raccomandata tale sua volontà entro il termine perentorio di 10 gg dal ricevimento dell'avviso dell'aumento di prezzo. In difetto, il nuovo prezzo s'intenderà accettato.

5) Consegna. La vendita è sempre franco stabilimento di Polis. La merce viaggia a rischio e pericolo dell'Acquirente ed ogni nostra responsabilità cessa con la consegna al vettore, nei confronti del quale l'Acquirente, effettuate le opportune verifiche, dovrà sporgere eventuali reclami. Le spedizioni, via mare o via terra, concernenti forniture sull'estero, vengono effettuate in base alle condizioni scelte di volta in volta, riportate negli "Incoterms" approvati dalla Camera di Commercio Internazionale.

6) Termini di consegna. I termini di consegna hanno carattere indicativo: eventuali ritardi nelle consegne, interruzioni, sospensioni totali o parziali delle forniture non daranno diritto ad indennizzi o risarcimento danni se non diversamente concordato per iscritto.

7) Campioni. I dati figuranti nei documenti illustrativi di Polis, così come le caratteristiche dei campioni e modelli da quest'ultimo inviati all'Acquirente, hanno carattere di indicazioni approssimative. Questi dati non hanno valore impegnativo se non nella misura in cui siano stati espressamente menzionati come tali nell'offerta o nell'accettazione scritta di Polis.

8) Pagamenti. Le fatture di Polis vengono emesse il giorno della fornitura, salvo che l'acquirente non chieda l'emissione della fattura a fine mese, e devono essere pagate al netto alla scadenza pattuita. Ogni e qualsiasi obbligazione di pagamento tra le parti contraenti deve essere adempiuta presso la sede amministrativa della Polis sita in via Sallustio Crispo 15 - 41123 Modena. Eventuali pagamenti fatti ad agenti, rappresentanti o ausiliari di commercio di Polis non si intendono effettuati finché le relative somme non pervengano a Polis. Il pagamento dovrà essere effettuato, salvo diverso accordo scritto, contestualmente alla consegna, presso l'Istituto bancario indicato di Polis. Qualsiasi ritardo o irregolarità nel pagamento dà a Polis il diritto di sospendere le forniture o di risolvere i contratti in corso, anche se non relativi ai pagamenti in questione, nonché il diritto al risarcimento degli eventuali danni. Polis ha comunque diritto - a decorrere dalla scadenza del pagamento, senza necessità di messa in mora - agli interessi moratori nella misura prevista dal d.lgs. 09/10/2002 n. 231. In caso d'inadempiamento, anche solo parziale, gli interessi moratori sull'importo non pagato decorreranno dal giorno della consegna anche se il termine di pagamento era stato convenuto a data successiva. Nessuna contestazione o controversia inerente alla qualità della merce, a vizi o difetti, o a qualsiasi altro aspetto del contratto, sarà efficace e potrà essere presa in considerazione, e così pure nessuna azione potrà essere iniziata se non dopo l'avvenuto integrale pagamento del prezzo (clausola solve et repete). Non è ammessa compensazione con eventuali crediti, comunque insorti, nei confronti di Polis.

9) Garanzie e Reclami. La qualità del materiale ceramico è definita sulla base delle vigenti normative internazionali applicabili alla corrispondente classe di prodotto. Polis garantisce la sola merce fornita in prima scelta. Reclami relativi a merce in scelta differente dalla prima (scelta B, commerciale, seconda, terza, secondaria, stock, etc.) non saranno presi in considerazione, né viene data implicitamente od esplicitamente alcun tipo di garanzia su tali materiali. È fatto obbligo all'Acquirente di verificare la merce in termini di qualità e quantità entro breve tempo dal ricevimento e, in caso di reclamo, darne comunicazione per iscritto entro e non oltre 8 (otto) giorni dal ricevimento stesso pena la decadenza da ogni diritto. Il materiale considerato difettoso dovrà essere tenuto a disposizione di Polis per le verifiche che riterrà opportuno effettuare; ogni ulteriore azione (restituzione, riparazione o altro) dovrà essere da noi preventivamente autorizzata per iscritto. Reclami e richieste di intervento in garanzia dopo la posa in opera non saranno presi in esame nel caso in cui il difetto contestato dovesse risultare palese (es. sbeccate, difetti dimensionali, differenze di tono, ecc.). Si precisa che la prima scelta può contenere piastrelle difettose nel limite del 5% e che la tonalità del materiale fornito può differire dal campione esposto, essendo la ceramica intrinsecamente variabile come aspetto. I reclami imputati a difetti o vizi occulti dovranno essere formalizzati per iscritto entro 8 (otto) giorni dalla scoperta e, in ogni caso, entro un anno dalla consegna, pena la decadenza da ogni diritto alla garanzia e di risarcimento. La comunicazione dovrà contenere, oltre i dati di fatturazione, una precisa descrizione del vizio, un preventivo dei costi di riparazione o modificazione del prodotto; in mancanza di questi dati il reclamo si considera nullo. Qualora il reclamo dovesse risultare infondato l'Acquirente dovrà risarcire Polis di tutte le spese sostenute per l'accertamento (viaggi, perizie, ecc.). L'obbligo di Polis è, in ogni caso, limitato alla sostituzione dei soli pezzi difettosi o alla riparazione, con esplicita esclusione di ulteriori diversi indennizzi quali, a titolo indicativo ma non limitativo, per costi di rimozione e sistemazione di mobili, attrezzature, macchinari ecc., mancati guadagni per interruzione o sospensione di attività, disagi, danni indiretti ecc. La presenza di piastrelle difettose non inficia la qualità dell'intera fornitura né comporta l'obbligo della integrale sostituzione. I limiti temporali della durata della garanzia sono quelli stabiliti dal codice civile italiano.

10) Riservato dominio. La vendita della merce viene effettuata con la clausola del riservato dominio; pertanto, nel caso in cui il pagamento, per accordi contrattuali, debba essere effettuato, in tutto o in parte dopo la consegna, i prodotti consegnati restano di proprietà Polis fino all'integrale pagamento del prezzo.

11) Cessione del contratto. L'Acquirente non può cedere la sua posizione nel contratto od in singoli rapporti obbligatori da questo derivanti senza l'accettazione scritta di Polis: anche in tal caso l'Acquirente rimane comunque solidalmente responsabile col cessionario per le obbligazioni cedute. **10) Riservato dominio.** La vendita della merce viene effettuata con la clausola del riservato dominio; pertanto, nel caso in cui il pagamento, per accordi contrattuali, debba essere effettuato, in tutto o in parte dopo la consegna, i prodotti consegnati restano di proprietà Polis fino all'integrale pagamento del prezzo.

12) Proprietà industriale. Polis è titolare e legittimo detentore di esclusive relative ai marchi, a disegni e brevetti di invenzione.

13) Legge del contratto - Foro competente. Il contratto è disciplinato dalla legge italiana, compresi gli Usi di settore della Provincia di Mantova. Per qualsiasi controversia comunque derivante dal contratto di fornitura, tanto da parte di Polis come da parte dell'Acquirente, è esclusivamente competente il Tribunale di Mantova. È comunque in facoltà di Polis adire autorità giudiziarie diverse.

14) Sicurezza della catena logistica. Polis al fine di garantire la sicurezza della catena logistica internazionale richiede ai propri CLIENTI il rispetto di requisiti standard per garantire la sicurezza delle merci nei rapporti contrattuali e per garantire la loro conformità alla normativa AEO - Operatore Economico Autorizzato - Dogane, in tutta la Comunità Europea. I CLIENTI di Polis si impegnano a garantire che le merci prese in consegna o consegnate siano spedite o trasportate, immagazzinate, preparate e caricate in locali sicuri e in zone di carico e di spedizione sicure, protette contro manomissioni non autorizzate, utilizzando solo personale interno autorizzato ed opportunamente istruito.

I prodotti POLIS MANIFATTURE CERAMICHE S.p.A. sono conformi alle normative attualmente in vigore. Le eventuali indicazioni di pesi, misure, dimensioni, colore, tonalità ed altri dati contenuti in tutto il materiale dimostrativo di POLIS MANIFATTURE CERAMICHE S.p.A. hanno carattere puramente indicativo e non saranno vincolanti. Per una maggior valorizzazione dei materiali stonizzati si consiglia di installare il materiale prelevandolo alternativamente da scatole diverse. Per la posa dei prodotti rettificati si consiglia l'uso di un massetto autolivellante e l'utilizzo di una fuga non inferiore ai 2 mm. POLIS MANIFATTURE CERAMICHE S.p.A. non sarà responsabile per difetti dovuti alla non corretta posa dei materiali. Per prodotti lappati si raccomanda la massima cautela durante le operazioni di movimentazione e posa, evitando in particolare di sfregare le piastrelle l'una contro l'altra e si consiglia, a posa effettuata, di proteggere la pavimentazione con una copertura in cartone fino alla conclusione dei lavori di cantiere. Per il particolare tipo di struttura del prodotto si consiglia una rapida pulizia delle superfici dopo la stuccatura. POLIS MANIFATTURE CERAMICHE consiglia l'utilizzo di prodotti per la pulizia a marchio GEAL. POLIS MANIFATTURE CERAMICHE ha la facoltà di modificare le informazioni tecniche riportate in questo catalogo. I colori e le caratteristiche estetiche dei prodotti sono indicative, in quanto non riproducibili su carta stampata con assoluta fedeltà.

IMPORTANT INFORMATION

This price list supersedes and voids all prior price lists.
The prices in this list are EX FACTORY.
The carton used for packaging is included in the price.
All items in this list are sold by full cartons only.

Unless other agreements are made, this price list is valid for one year from the date of issue and is subject to cost variations.
Prices do not include VAT.

Sales conditions:

1) Contractual rules. Unless modifications are made or variations agreed upon in writing, these conditions govern all sales contracts between Polis maniffature ceramiche S.p.A. and the Purchaser. Variations to the general sales conditions, offers, credit notes or allowances granted by our agents or other intermediaries are not valid unless authorised in writing by our company.

2) Scope of the supply. The supply includes only the materials, services and quantities specified in our order confirmation. The Polis order confirmation will in all cases prevail over offers or orders containing different texts.

3) Order confirmation. Should there be differences between single elements of the Polis order confirmation and the existing agreements and orders, Purchasers have 7 days, from receiving our order confirmation, to lodge a written complaint. After this term, our order confirmation is deemed to be accepted. The customer undertakes to inform Polis maniffature ceramiche S.p.A. of any changes of destination of the goods, if the destination differs from the one indicated in the order confirmation, within and not later than the expected day for collection from Polis. Changes must be reported to Polis by means of a written letter delivered by main, a fax or an e-mail message that specifies the consignee of the goods and the place of delivery. Should this information not be provided, the indicated destination will be deemed to be confirmed.

4) Prices. The prices indicated on Polis price lists are not binding; as a consequence, we reserve the right to modify them before accepting the order. The prices agreed upon for each single sale are deemed to be net, in cash and with delivery ex works, unless otherwise agreed upon. Should the costs for raw materials, labour, fuel, production, transport, etc. increase during the time running between the order date (even after the order confirmation) and the delivery date, Polis may increase the price agreed upon by giving written notice to the Purchaser, also by means of a fax or e-mail message. However, should this price exceed the price agreed upon when ordering by over 20%, the Purchaser may terminate the contract by giving notice of this by registered letter within the mandatory term of 10 days from receiving the price increase notification. Should this communication not be provided, the new price will deemed to be accepted.

5) Delivery. Deliveries are always ex our warehouse. Goods travel at the risk of the Purchaser and any liability of ours ends upon handing the goods over to the carrier, to which Purchaser, after making the necessary inspections, may lodge any complaints. Shipment by sea or over land, for supplies abroad, is performed in compliance with the conditions chosen and set forth in the Incoterms approved by the International Chamber of Commerce.

6) Delivery terms. Delivery terms are indicative: any delays in delivery, interruptions, total or partial suspension of supplies do not in any manner entitle the Purchaser to receive compensation for damage, unless otherwise agreed upon in writing.

7) Samples. The information contained in Polis descriptive documents, including the characteristics of samples and models sent by the latter to the Purchaser, have an indicative nature. This information is not binding, unless said information is explicitly indicated in the offer or in the written acceptance of Polis.

8) Payment. Polis invoices are issued on the date of the supply, unless the Purchaser requests issuing at the end of the month. They must be paid net on the due date agreed upon. Any and every payment obligation between the contractual parties must be made to the administrative headquarters of Polis in via Sallustio Crispo 15 - 41023 Modena. Any payments made to agents, representatives or auxiliary sales personnel of Polis will not be deemed as made until the sums reach Polis. Unless otherwise agreed upon in writing, payment must be made upon delivery to the bank indicated by Polis. Any delayed or irregular payment entitles Polis to suspend the supplies or terminate the contract under execution, even in the case of payments differing from those mentioned. Polis is also entitled to compensation for damage. Starting from the due payment date, without the need of a formal notice, Polis is entitled to receive the default interests, as per Leg. Decree n°231 of 09/10/2002. In the event of infringement, even of a partial nature, the default interests on the sum due and not paid will be counted from the date of delivery, even if the payment date agreed upon is subsequent. No complaint or controversy relating to the quality of the goods, to faults and defects, or to any aspect of the contract, will be considered valid or will be taken into consideration. In the same manner, no proceedings may be enacted unless the entire sum has been paid (solve et repete clause). Compensation with any credits with regards to Polis will not be accepted.

9) Warranty and complaints. Quality of the ceramic material is defined based on the international standards in force applying to the corresponding product class. Polis guarantees only first grade material. Complaints relating to goods that are not first grade (commercial, second or third grade, stock material, etc.) will not be considered. For these materials neither implicit or explicit warranties are granted. The Purchaser must undertake to check the quality and quantity of goods in the shortest time possible from delivery. Any complaints must be lodged in writing within 8 (eight) days from the receiving the goods. On the contrary, any rights will be lost. Alleged faulty material must be kept at the disposal of Polis so that the latter may inspect it as deemed necessary; any further action (return, repair or other actions) must be authorised by Polis in writing. Complaints or requests under the terms of the warranty relating to visibly faulty material (e.g. cracked material, material with size or tone defects, etc.) will not be considered if said material has been installed. Please be informed that first grade material may contain faulty tiles within the limit of 5% and that the tone of the material supplied may differ from the sample, being ceramic material intrinsically variable as far as appearance is concerned. Complaints relating to non-visible faults or defects must be reported in writing within 8 (eight) days from discovery and in any case within one year from delivery. On the contrary, any warranty and refund rights will be invalidated. Apart from invoicing information, the report must contain an accurate description of the fault and a quotation of costs for repairing or modifying the product; if this information is lacking, the complaint will be considered null and void. Should the complaint be unfounded, the Purchaser must refund Polis any costs borne for the inspection (journey, surveys, etc.). Polis's obligations are limited to the replacement of faulty tiles, with the explicit exclusion of any further compensation, including but not limited to costs for removal or shifting of furniture, equipment, machinery, etc., loss of profit due to the interruption or suspension of activity, inconvenience, indirect damage, etc. The presence of faulty tiles does not affect the quality of the entire supply and does not give the right to complete replacement. The warranty term is that established by the Italian Civil Code.

10) Ownership. Goods are sold based on the ownership clause; therefore if, under contractual agreements, payment is made totally or partially after delivery, delivered products remain property of Polis until the entire price has been paid.

11) Contract termination. The Purchaser may not transfer its contractual obligations or single obligations without the written authorisation of Polis: also in this case, the Purchaser remains mutually responsible with the transferee for the obligations transferred.

12) INDUSTRIAL PROPERTY RIGHTS. Polis is the legal owner of any trademarks, drawings and patents it owns.

13) Competent law - Competent law court. The contract is governed by the laws of Italy, including the customs of the sector of the Province of Mantua. Any dispute arising from the supply contract, both on the part of Polis and on the part of the Purchaser, falls within the cognisance of the Law Court of Mantua Polis however reserves the right to refer to different judicial authorities.

14) Safety of the logistic chain. In order to guarantee safety of the international logistic chain, Polis requests that its CLIENTS adhere to the standard requirements for safety of goods in contractual relationships, and for granting compliance with the AEO - Customs standard, in the entire European Community. Polis CLIENTS must undertake to guarantee that goods are taken on, delivered, shipped or transported, stored and prepared in safe areas and in safe loading and shipment zones. In particular, they must be protected against unauthorised tampering, by employing only internal authorised and correctly trained personnel.

INSTRUCTIONS IMPORTANTES

Ce catalogue des prix remplace et annule les catalogues précédents.
Les prix figurant dans ce catalogue s'entendent DÉPART USINE.
L'emballage dans des boîtes en carton est compris dans le prix.
Tous les articles de ce catalogue sont exclusivement vendus par boîtes complètes.

Francais

Sauf indication contraire, le présent catalogue des prix est valable un an à compter de sa date d'émission et peut subir des modifications en fonction de l'évolution des coûts. Prix hors TVA.

Conditions de vente :

1) Règlements contractuels. Les présentes conditions générales réglementent, sous réserve de toute modification ou dérogation établie par écrit, tous les contrats de vente entre Polis maniffature ceramiche S.p.A. et l'Acheteur. Les variations des conditions générales de vente, les offres, les crédits ou les remises accordés par nos agents ou par d'autres intermédiaires ne sont valables qu'après avoir été acceptés par écrit par notre établissement principal.

2) Objet de la fourniture. La fourniture ne comprend que les matériaux, les prestations et les quantités indiqués dans notre confirmation de commande. Le texte de la confirmation d'ordre Polis prévaudra sur tout autre texte de l'éventuelle offre ou de la commande.

3) Confirmation d'ordre. Si la confirmation de commande Polis devait présenter des différences au niveau de chacun des éléments la composant par rapport aux accords ou aux commandes, l'Acheteur devra la contester par écrit dans les 7 jours à compter de sa réception. Dans le cas contraire, ladite confirmation sera considérée comme ayant été acceptée. Le client s'engage à communiquer à la société Polis maniffature ceramiche S.p.A. toute variation du lieu de destination de la marchandise par rapport au lieu indiqué dans la confirmation de commande, et ce au plus tard le jour prévu pour le retrait auprès de la société. Cette communication prévoit l'envoi, par poste, fax ou e-mail, des données d'identification du destinataire des marchandises et de l'endroit où aura lieu la livraison. A défaut de cette communication, la destination indiquée initialement est automatiquement confirmée.

4) Prix. Les prix indiqués sur les catalogues Polis ne sont pas définitifs : nous nous réservons donc le droit de les modifier avant l'acceptation de la commande. Les prix convenus pour chaque vente s'entendent hors TVA pour tout paiement comptant et toute livraison départ usine, sous réserve de tout autre accord écrit. En cas d'augmentation, entre la date de commande (y compris après la confirmation d'ordre) et la date de livraison, des coûts des matières premières, de la main-d'œuvre, des combustibles, des frais de production, de transport, etc., Polis pourra augmenter le prix convenu en le communiquant par écrit à l'Acheteur, y compris par fax ou par e-mail. Si ce nouveau prix devait cependant dépasser de 20% celui convenu lors de la commande, l'Acheteur pourra résilier le contrat en nous informant de sa volonté par lettre recommandée d'ici 10 jours à compter de la réception de l'avis d'augmentation de prix. Dans le cas contraire, le nouveau prix sera considéré comme étant accepté.

5) Livraisons. La marchandise est toujours livrée départ de notre entrepôt. La marchandise voyage aux risques et aux périls de l'Acheteur et nous n'en sommes plus responsables après l'avoir livrée au transporteur. C'est à ce dernier que l'Acheteur devra adresser toute éventuelle réclamation après avoir contrôlé la marchandise. Les expéditions, par mer et par terre, des fournitures pour l'étranger, ont lieu en fonction des conditions choisies tour à tour et indiquées dans les « Incoterms » approuvés par la Chambre de commerce internationale.

6) Délais de livraison. Les délais de livraison sont fournis à titre indicatif : sous réserve de tout autre accord écrit, tout retard de livraison, toute interruption, suspension totale ou partielle des fournitures ne donnent droit à aucune indemnisation.

7) Échantillons. Les données figurant sur les documents explicatifs de la société Polis, tout comme les caractéristiques des échantillons et des modèles que cette dernière envoie à l'Acheteur, ne sont qu'approximatives. Ces données sont donc indicatives à moins qu'elles n'aient été expressément confirmées dans l'offre ou dans l'acceptation écrite de la société Polis.

8) Paiements. Les factures de Polis sont émises le jour de la fourniture, à moins que l'Acheteur n'en demande l'émission en fin de mois. L'Acheteur devra en payer le montant net à l'échéance convenue. Tout paiement obligatoire entre les parties contractantes doit être adressé à la société Polis sise via Sallustio Crispo 15 - 41023 Modena. Les éventuels versements effectués aux agents ou aux représentants de commerce Polis ne sont considérés comme effectivement versés qu'à la réception des sommes correspondantes de la part de Polis. Le paiement devra être effectué à la livraison, sous réserve de tout autre accord, et adressé à la banque indiquée par Polis. Tout retard de paiement ou tout paiement irrégulier autorise Polis à suspendre les fournitures ou à résilier les contrats en cours, y compris ceux ne concernant pas ledits paiements, et d'exiger des dommages-intérêts. Polis a droit – à compter de la date d'échéance du paiement, sans qu'aucune mise en demeure ne soit nécessaire – aux intérêts moratoires au taux prévu par le Décret Législatif italien n° 231 du 09/10/2002. A défaut de paiement, ne serait-ce que partiel, les intérêts moratoires sur le montant impayé courent à compter du jour de la livraison même si le délai de paiement a été établi à une date ultérieure. Toute contestation ou controverse concernant la qualité de la marchandise, des vices ou des défauts, ou tout autre aspect du contrat, ou toute action ne sera efficace et ne pourra être prise en compte qu'après le paiement total du prix (clause « solve et repete »). Aucune compensation par créances à l'égard de Polis ne saurait être acceptée.

9) Garanties et réclamations. La qualité du matériau céramique est définie sur la base des normes internationales en vigueur qui s'appliquent à la classe de produit correspondante. Polis ne garantit que la marchandise de premier choix. Aucune réclamation concernant une marchandise différente (commerciale, deuxième choix, troisième choix, stock, etc.) ne sera prise en compte et aucune sorte de garantie ne sera octroyée sur les matériaux en question. L'Acheteur se doit de contrôler, immédiatement après la réception, la quantité et la qualité de la marchandise. Il devra en outre communiquer toute réclamation par écrit, dans les 8 (huit) jours à compter de la réception, sous peine de déchéance de tout droit. Le matériel considéré comme défectueux devra être mis à la disposition de la société Polis pour l'exécution des contrôles requis ; toute autre action (rendu, réparation ou autre) devra être préalablement autorisée par écrit par la société Polis. Les réclamations et les demandes d'intervention sous garantie après la pose ne seront pas prises en compte au cas où le défaut contesté devait être apparent (ex. : fissures, défauts dimensionnels, différences de ton, etc.). A noter que la marchandise de premier choix peut présenter des carreaux défectueux (pas plus de 5%) et que la tonalité du matériau fourni peut différer par rapport à l'échantillon exposé, étant donné que l'aspect de la céramique est intrinsèquement variable. Les réclamations attribuées à des défauts ou des vices cachés devront être formalisées par écrit dans les 8 (huit) jours à compter de leur découverte et, quoi qu'il en soit, d'ici un an à compter de la livraison, sous peine de déchéance de tout droit à la garantie et aux dommages-intérêts. Il faudra dans ce cas communiquer les données de facturation, décrire avec précision le vice, établir un devis des coûts de réparation ou de modification du produit ; à défaut de ces données, la réclamation sera considérée comme nulle. En cas de réclamation non fondée, l'Acheteur devra indemniser Polis de tous les frais engagés pour le contrôle (voyages, expertises, etc.). L'obligation de la société Polis ne se limite qu'au remplacement des pièces défectueuses et exclut expressément tout autre dédommagement pour, à titre indicatif et non limitatif, des frais de dépose et remise en place de meubles, équipements, machines, etc., pertes de revenu suite à l'interruption ou à la suspension d'activités, difficultés, dommages indirects, etc. La présence de carreaux défectueux n'affecte en aucun cas la qualité de l'ensemble de la fourniture et n'en implique pas le remplacement intégral. Les délais de garantie sont ceux établis par le code civil italien.

10) Réserve de propriété. La vente de la marchandise est effectuée avec la clause de réserve de propriété ; par conséquent, en cas de paiement à effectuer, selon les accords contractuels, totalement ou partiellement après la livraison, les produits livrés restent la propriété de la société Polis jusqu'au paiement total du prix.

11) Cession du contrat. L'Acheteur ne peut en aucun cas céder sa position dans le contrat ou dans des rapports individuels obligatoires dérivant dudit contrat sans l'accord écrit de la société Polis : dans ce cas également, l'Acheteur reste, avec le cessionnaire, solidairement responsable en ce qui concerne les obligations cédées.

12) PROPRIÉTÉ INDUSTRIELLE. Polis est titulaire et détenteur légitime des exclusivités ayant trait aux marques, aux dessins et aux brevets d'invention.

13) Loi du contrat - Tribunal compétent. Le contrat est réglementé par la loi italienne, y compris les Usages de l'industrie de la Province de Mantoue. Pour toute controverse liée au contrat de fourniture, aussi bien de la part de Polis que de la part de l'Acheteur, seul le Tribunal de Mantoue est compétent. Polis a quoi qu'il en soit la faculté de saisir d'autres autorités judiciaires.

14) Sécurité de la chaîne logistique. Polis demande à ses propres CLIENTS de respecter les règlements standards pour garantir la sécurité de la chaîne logistique internationale, la sécurité des marchandises dans les rapports contractuels et pour garantir leur conformité à la norme AEO – Opérateur Economique Agréé – Douanes, dans toute la Communauté européenne. Les CLIENTS de Polis s'engagent à garantir que les marchandises prises en livraison ou livrées sont bien expédiées ou transportées, stockées, préparées et chargées dans des locaux sûrs et dans des zones de chargement et d'expédition sécurisées et protégées contre toute manipulation non autorisée. Pour ce faire, ils ne feront appel qu'à du personnel interne qualifié.

POLIS MANIFATTURE CERAMICHE S.p.A. products comply with the standards at present in force. Any indications of weight, measurements, dimensions, colours, shades and other data contained in the POLIS MANIFATTURE CERAMICHE S.p.A. illustrative material are merely indicative and must not be understood as binding. To enhance the effect of shaded materials it is recommended to alternate items from different boxes while laying. When laying ground products it is advisable to use a self-levelling floor plaster with joints of not less than 2 mm. POLIS MANIFATTURE CERAMICHE S.p.A. do not accept responsibility for defects resulting from the incorrect laying of materials. Maximum care should be taken when handling and layingpolished products, in particular avoiding rubbing the tiles against each other. When laying is complete it is advisable to protect the floor with cardboard up until completion of building work on the site. Due to the specific surface of this items, it is advisable to clean the tiles immediatly after grouting. POLIS MANIFATTURE CERAMICHE S.p.A. recommends the use of GEAR cleaning products. POLIS MANIFATTURE CERAMICHE S.p.A. reserves the right to modify the technical information reported on this catalogue. The colours and aesthetic features of the products are indicative, as it is not possible to reproduce them faithfully on paper.

Les produits POLIS MANIFATTURE CERAMICHE S.p.A. sont conformes aux normes actuellement en vigueur. Les éventuelles indications de poids, mesures, dimensions, couleurs, tonalités et autres données figurant dans tout le matériel de démonstration de POLIS MANIFATTURE CERAMICHE S.p.A. revêtent un caractère purement indicatif et ne sont pas définitives. Pour valoirser au mieux la variabilité chromatique du matériel, il est conseillé de l'installer en le prélevant de plusieurs boîtes. En ce qui concerne la pose des produits rectifiés, utiliser une chape autolissante ainsi que des joints inter-carreaux non inférieurs à 2 mm. La société POLIS MANIFATTURE CERAMICHE S.p.A. décline toute responsabilité en cas de défauts provoqués par une pose incorrecte du matériel. Faire particulièrement attention aux produits polis durant les opérations de manutention et de pose, en évitant notamment le frottement des carreaux les uns contre les autres, et protéger le carraige fraîchement posé avec du carton jusqu'au terme des travaux. En raison de la structure particulière du produit, il est conseillé de nettoyer rapidement les surfaces après le jointoiement. POLIS MANIFATTURE CERAMICHE conseille en outre l'utilisation de produits de nettoyage de la marque GEAR. POLIS MANIFATTURE CERAMICHE à la faculté de modifier les informations techniques fournies dans ce catalogue. Les couleurs et les caractéristiques esthétiques des produits ne sont qu'indicatives étant donné qu'il est impossible de les reproduire fidèlement sur du papier imprimé.
